

Mockup Review Notes:

- I met with Bella to direct her in her work on my site.
- I liked the system of collaged images that she was using.
- We talked about finding web fonts online that would complement the page, and the idea of using single-hue backgrounds for the images and to separate the eras of the figure's life.
- We also settled on putting an emphasis on the timeline of the events for my figure.
- Discussed the idea of creating a fixed key that would allow you to navigate the single-page website by clicking.
